### PART 3 EXECUTION

#### 3.1 PREPARATION

Pavement grooving and grinding shall be performed in accordance with CALTRANS SS SECTION 40 and CALTRANS SS SECTION 42. Except on structures, the entire area of pavement in location designated shall be ground.

#### 3.2 PORTLAND CEMENT CONCRETE

Grinding shall be performed so that the pavement surface on both sides of all transverse joints and cracks has essentially the same depth of texture and

does not vary from a true plane enough to permit a **0.006-foot** thick shim 0.25-foot wide to pass under a 3-foot straight edge adjacent to either side of the joint or crack when the straight-edge is laid on the pavement parallel to centerline with its midpoint at the joint or crack. After grinding has been completed, the pavement shall conform to the straightedge and profile requirements specified in CALTRANS SS SECTION 40-1.10, "Final Finishing", Portland Cement Concrete Pavement, California Department of Transportation (CALTRANS) Handbook. \*

#### 3.3 ASPHALT CONCRETE PAVEMENT

Grinding shall be performed so that the finished surface shall not vary from a true plane enough to permit a 0.01-foot thick shim 0.25-foot wide to pass under a straightedge 12 feet long when the straightedge is laid on the finished surface parallel with the centerline. The traverse slope of the finished surface shall be uniform to a degree such that a 0.02-foot thick shim 0.25-foot wide will not pass under a straightedge 12 feet long when the straightedge is laid on the finished surface in a direction transverse to the centerline and extending from edge to edge of a 12 foot traffic lane.

#### 3.4 GROUND SURFACE

Ground surfaces shall not be smooth or polished and, except as otherwise specified in the CALTRANS SS SECTION 51-1.17, shall have a coefficient of friction of not less than 0.30 as determined by California Test 342.

#### 3.5 GRINDING RESIDUE

Residue from grinding operations shall be picked up by means of a vacuum attachment to the grinding machine and shall not be allowed to flow across the pavement nor be left on the surface of the pavement. Residue from grinding portland cement concrete pavement and asphalt concrete shall be disposed of at a location specified by the project engineer.

#### 3.6 NOISE LEVEL ZONE

The noise level created by the combined grinding operation shall not exceed 86 dBA at a distance of 49 feet at right angles to the direction of travel.

In the listing above, the "SU" designation means that rates listed under that identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.)

and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U. S. Department of Labor  
200 Constitution Avenue, N. W.  
Washington, D. C. 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N. W.  
Washington, D. C. 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U. S. Department of Labor  
200 Constitution Avenue, N. W.  
Washington, D. C. 20210

4.) All decisions by the Administrative Review Board are final.
